RS

SUMMARY

Computer Science Engineering student with hands-on experience in frontend web development, backend programming using Python, and mobile application development using Kotlin. Experienced in developing academic and mini projects with a focus on clean UI, structured logic, and teamwork.

EDUCATION

Bachelor of Technology

Greater Noida Institute of Technology GNIOT

2024 - Present | Greater Noida, U.P

Secondary School

CBSE Board

04/2023 - 04/2024

SKILLS

Programming Languages

- Python
- C
- C++
- Java

Core Computer Science Concepts

- Data Structures & Algorithms (DSA)
- Object-Oriented Programming (OOP)
- Artificial Intelligence & Machine Learning
- Data Science

Tools & Platforms

- Git & GitHub
- Visual Studio Code
- MS Excel
- Android Studio

Web Technologies

- HTML
- CSS
- JavaScript
- Responsive Web Design

PROJECTS

AI-Based Grievance Resolution Portal (Mini Project – Team Lead)

01/2023

A mini project focused on grievance resolution using AI technology

- Designed and developed an AI-driven grievance resolution system to manage and resolve user complaints efficiently
- Implemented role-based access for users and administrators
- Gained experience in problem analysis, system design, and team leadership

AI-Powered E-Commerce Analytics Dashboard

02/2026

Tech Used : Python, SQL, Power BI, Excel

Description

Built an analytics dashboard for an e-commerce store to track sales, customer behavior, revenue trends, and inventory insights. Performed data cleaning and visualization using Power BI. Generated automated reports for business decision-making.

CERTIFICATIONS

- Programming, Data Structures and Algorithms using
- Python – NPTEL
- Cloud Computing Fundamentals – Online Certification
- Cyber Security Fundamentals – Online Certification
